#### Do you qualify for disability?

The first step in the Social Security application process is determining whether you are eligible to apply for SSDI or SSI benefits based on the qualification criteria and strict definition of disability provided by the Social Security Administration (SSA). For detailed information on eligibility requirements and SSA definitions of disability, please contact us by completing a free disability evaluation.

#### How to apply for disability?

You can submit your initial stage application for Social Security benefits to the SSA online, over the phone, or in person at your local SSA office. Without an attorney or disability advocate over 60% of first-time applicants are denied. It is therefore advisable to familiarize yourself with the entire application process and contact an attorney or disability advocate using the toll-free number at the top or using the form on the right.

#### If you are denied Social Security Benefits?

If you are denied Social Security benefits, it isn't the end of the line. The Social Security application process has several built-in levels of appeal, any of which can overturn the initial decision and give you the benefits to which you are entitled. For information on the options available to you if you are denied, and how to get help appealing your claim before the SSA, please contact us by completing a free disability evaluation.
